FROM THE DIRECTOR'S DESK

RAHUL NAINWAL
Senior Director,
School of Business

"We are shaping a new generation of leaders ready to thrive in a world defined by disruption, speed, and possibility. Our commitment is simple: to build an ecosystem where students don't just keep up with change but confidently shape the future they will eventually lead.

Our academic strength is based on an exceptional faculty drawn from IIMs, IITs, global universities, and industry, who bring deep insight into every learning experience. By co-designing and co-delivering programs with leading consulting firms, we ensure that our students learn and evolve with the industry.

We focus on a learning culture that inspires questioning, experimentation, and bold thinking. Students engage at the intersection of theory and practice, supported by curated opportunities, mentorship, and access to incubation support through Runway. This ecosystem nurtures an entrepreneurial mindset and empowers them to turn ideas into impact from the very start.

In an increasingly interconnected world, our international collaborations and global immersion programs broaden perspectives and sharpen global business acumen. At the School of Business, we take pride in preparing graduates for a disruptive world.

BUILDING LIFELONG CAPABILITIES

UPES School for Life

UPES has pioneered India's first dedicated life-skills training module through the School for Life movement, enabling students to be life-ready with timeless abilities that outlast macro shifts and technological disruptions. Through immersive bootcamps and continuous micro-learning, learners build clarity, resilience, self-leadership, and the confidence to thrive in any future. Delivered through podcasts and concise, snackable content, the program fosters global citizenship, cultural awareness, and social responsibility.
